f) Form – 5 Register:

This register is maintained for all the registered and undetected offences and Red Sander logs. The Red Sander logs quantity of 33.5508 Metric tons as per Form-5 is not on the ground. On asking the FRO stated that the said 33.5508 metric tons of Red Sanders logs are not found on the ground in the premises of Onipenta Forest Range. On asking about the above shortages, the FRO, Onipenta has stated as follows.

He took charge of Onipenta Range on 09.10.2017. After being charged by him, he verified all the records and stock positions of the various items at the end of October 2017. He had a suspicion about the stock of red sander logs, which were supposed to be present in the range complex, and started a thorough enquiry.

On 31.03.2018, he submitted an initial report to the DFO, Proddatur vide Rc.No.22/2018, Dt.31.03.2018 stating that some of the custodians i.e. FBOs have not accounted properly for the seized Red sander logs, even after serving notices to them. The details have been submitted to the DFO, Proddatur to proceed further and to find out the facts.

Later, on verification of Case records, Offence Records, TCR's FORM- 9A & 9B (Red sander material present inside and outside depot) and FORM- 5 (Receipts and issue of Timber and other produce including Red Sander logs & Vehicles involved in offence about the Depot),it was noticed that a quantity of 116.797 MT's of red sander wood logs had to be present in the range complex as per FORM-5. On verification ofthe logs, which were present in the Onipenta range complex, they noticed that all the red sander logs were not present in the lot form and not in the case ofthe wise lot, which is very difficult for them to find out the casewise logs then immediately he issued notices to all concern red sander custodians vide RC.No.22/2018 Dt.02.01.2018, 05.01.2018, 11.08.2018, about the Onipenta range, who are working presently and formerly worked in Onipenta Range through connected range officers working in the Proddatur division. Some of the staff approached to Forest Range officer, Onipenta Range i.e. and showed the red sander produce, which was present in their custody to the concerned Onipenta Range staff. They verified the logs for the seizure list, which were present in the case records then they transported those logs with valid permit invoices and proper escort and in return escort persons handed over the produce (property) to the depot authority and the escort party submitted permits, invoice acknowledgement copies to the Range office.

Further, he submitted that some of the staff had submitted some documented proof supporting them that they were not the custodians of the particular cases, which was mentioned in the notice and after satisfying himself he changed the custodian name. After that, he transported the rest of the red sander logs from Onipenta Range to Tirupathi go-down. However, it was observed that there is a variation between the physical verification of the vehicles and the report submitted by the FRO Onipenta to the DFO Proddatur. Further, the FRO, Onipenta said that vide letter No 09/2020 Dt. 05.02.2021 only one Sumo bearing AP 05 BG 7019 seized in OR no 116/2009-10 in Maddivaripalli beat of Onipenta Range is not present in the premises of Onipenta Range compound.
